

Connecticut Supportive Housing Assessment

Introduction

This assessment identifies service needs for individuals and households both newly entering and currently housed in permanent supportive housing. It is designed to determine the level of intensity of services. It also provides information to evaluate a tenant's potential ability to move on from supportive housing to other affordable housing options that include limited follow-up supportive services.

The assessment and acuity index is also used in the Connecticut Permanent Supportive Housing Quality Assurance Program. During quality reviews the assessment and index are scored for completeness and timeliness. Reviewers also examine whether the index informs current service plan goals and that progress notes provide detailed information related to achieving service plan goals and moving an individual forward.

Training materials on the assessment can be accessed at www.csh.org or call CSH at 860-560-0744.

Instructions

The tool is designed to be completed by both the tenant and case manager and can be completed across multiple meetings. It should be utilized in the development of service plan goals and should include a discussion of the tenant's ability and interest in moving to a different type of unit, building, or neighborhood if applicable. Conversations should include the strength of the tenant's community connections for ongoing supportive services as needed, and ability to meet the occupancy requirements of the new housing unit, if applicable.

Fully complete this tool at initial entry and at least every six months. If information is not applicable, the section must be marked N/A in order to be deemed complete.

The acuity index, in turn, should be used to develop service plan goals. Specifically, a goal should be present on the service plan if an individual's level is a 0 or 1 on an acuity index item. If a large number of items are evaluated as a level 0 or 1, the case manager and supervisor should identify which should be presented as active goals or deferred goals in the service plan. Progress notes should also relate back to the acuity index and explain the steps taken to help meet the service plan goals and assist tenants in moving forward. In addition to informing service plan goals and progress notes, the acuity index can also be used to identify individuals who may be able to move on to another form of housing subsidy with support services provided by community providers.

Acuity Index Interpretation

Domain	Score Range			Tenant Score
	High Acuity	Medium Acuity	Low Acuity	
Housing and Lease	0-3	4-7	8-9	
Arrears and Debts	0-3	4-7	8-9	
Income and Benefits	0-3	4-7	8-9	
Support Services and Resources	0-6	7-12	13-15	
Health	0-6	7-12	13-15	
Parenting and Child Services	0-6	7-12	13-15	

Interpretation:

- **All domains fall in Low Acuity range:** Other housing options with community supports should be considered as a short term goal. Client is a candidate for “Moving-On” from Supportive Housing.
- **One or more domains scores in Medium Acuity range but no domains score in High Acuity range:** Other housing options with community-based supports should be considered as a long term goal.
- **One or more domains falls in High Acuity range:** Tenant should remain in supportive housing.
