**GOAL OF PATH PROJECT MONITORING:** To support a coordinated, collaborative, outreach effort in each CAN that:

- quickly connects unsheltered homeless individuals and families to safe available housing, income, health/behavioral healthcare and other supports;
- identifies people living in unsheltered locations and helps them to reduce the associated risks;
- minimizes service duplication; and
- uses available resources strategically to end unsheltered homelessness for as many people as possible, prioritizing those who are most vulnerable and/or have been homeless the longest.

	Participant Status Definitions
Outreach	Participants who have not been enrolled either because they have not been determined eligible or are not willing to participate in services.
Participants	<u> </u>
Enrolled Participants	Participants who have been determined to be eligible for PATH services, have indicated willingness to participate in services, and whom have not been discharged.
Participants receiving Full Case Management Services	The # of direct care staff and # of participants on each staff's caseload should be documented in the IUP. Projects without sufficient staff to provide full case management services (i.e., including needs assessment and service planning) to all enrolled participants may seek approval from DMHAS for limiting the number of participants for whom the project provides these services. That number must be documented on the outreach plan. The outreach plan must be approved by DMHAS.
Discharged	Enrolled participants shall be discharged when they meet the criteria
Participants	defined in #38 of this Guide. Enrolled participants shall not be discharged for other reasons.

	Report Key			
FINDINGS HIGHLIGHTED IN PINK:	Signify significant findings. Submission of a corrective action plan is required. DMHAS will send a template and instructions for the corrective action plan with the final report.			
FINDINGS HIGHLIGHTED IN YELLOW:	Signify area of non-compliance with PATH requirements. Findings should be corrected. Submission of a corrective action plan is not required.			
AREAS HIGHLIGHTED IN GREEN:	Signify best practice recommendations. Action is not required.

<sup>&</sup>lt;sup>1</sup> If a project has insufficient case management resources to enable assessment & service planning with all enrolled participants, the project may propose an alternative case management plan to DMHAS (e.g., conduct service planning with the 20 participants determined to be most vulnerable and/or homeless the longest). That alternative plan must be documented on the project's outreach plan, which must be approved by DMHAS & the CAN.

<sup>&</sup>lt;sup>2</sup> PATH projects are required to make assertive attempts to engage enrolled participants in the assessment and service planning process. Participants may opt not to participate. In such circumstances, projects should document engagement attempts.
